Allowable Subject Matter

4. Claims 20-40 are allowed.

5. The following is an examiner’s statement of reasons for allowance:

The present claims are allowable over the closest reference: Hong et al. (US 20040010069).

Hong et al. disclose a rubber composition comprising a rubber, a carbon black filler or a mixture of two or more carbon black, and plasticizing oils, wherein this composition can be used for windshield wiper blade (claims 1, 4, 15, and 33).

Thus, Hong et al. do not teach or fairly suggest the claimed rubber material which contains at least one grade of rubber, at least one filler and processing aids, the filler comprising a mixture of at least two different grades of carbon black, and at least one of

Art Unit: 1796

the grades of rubber having a first fraction and a second fraction, which in the unvulcanized state differ with respect to their viscosity, wherein the overall viscosity of the unvulcanized rubber material is in a range of 30 to 60 Mooney.

In light of the above discussion, it is evident as to why the present claims are patentable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
